

eHealth for every nurse **Nursing and eHealth Toolkit**

This eHealth Toolkit provides a user friendly, evidenced-based reference for nurses and other health professionals taking a leadership role in integrating eHealth technology into nursing and other health care practices within their organization.

Purpose of the Toolkit:

The purpose of this Toolkit is to outline effective strategies for integrating eHealth technology into health care practices and delivery systems in keeping with the vision of eHealth Ontario. The Toolkit describes a thorough implementation process that has its underpinnings in client care delivery, information sciences, and change management.

Who is this Toolkit designed for?

The Toolkit is targeted to **nurses and other healthcare professionals** involved in enhancing client care and health delivery system through eHealth.

The Nursing and eHealth Toolkit is available now for a cost of \$50.00 per Kit (shipping & GST is not included).
